

## AMETEK Brookfield Launches DV2Plus™ Viscometer: Global Standard in Viscosity Control

July 14, 2025

**Middleborough, MA** - AMETEK Brookfield, a global leader in precision measurement instruments, proudly announces the launch of the **DV2Plus™ Viscometer**, the next-generation solution in viscosity measurement. Building on the legacy of the DV2T, the DV2Plus™ delivers enhanced performance, modern connectivity, and an intuitive user experience – setting a new benchmark for quality control and R&D laboratories worldwide.

### **DV2Plus™: Innovation Built on a Legacy**

For over a decade, the DV2T has been the trusted standard in laboratories around the globe. The DV2Plus™ continues this tradition with powerful upgrades that include:

- **7" Color PCAP Touchscreen:** High-resolution, edge-to-edge display with intuitive navigation
- **Digital Wireless Transducer:** Maintenance-free design for improved reliability and cost efficiency
- **Post-Test Graphing & Favorites Menu:** Streamlined workflows and instant data visualization
- **740 Speed Settings & Gel Timer Functionality:** Greater flexibility for complex testing needs
- **Bluetooth & USB Connectivity:** Seamless integration with accessories and software
- **Software Compatibility:** Fully compatible with DV360™ and the **new DV Create™ software** for advanced test creation, real-time monitoring, and regulatory compliance

### **Why Choose DV2Plus™?**

The DV2Plus™ is designed for modern laboratories that demand precision, efficiency, and adaptability. Whether upgrading from the DV2T or seeking a competitive edge, users will benefit from:

- Enhanced user interface and digital leveling
- Advanced programming and test automation
- Compatibility with HPQA for Helipath testing

"The DV2Plus™ represents a major leap forward in benchtop viscometry. With its modern design, powerful features, and seamless software integration, it's the ideal solution for today's demanding lab environments." – Chris Murray, Business Development & Product Manager, AMETEK Brookfield

### **Transition Plan & Availability**

The DV2Plus™ is available to order now. The DV2T will be discontinued after **December 31, 2025**, with continued support for repairs and calibration based on parts availability. Customers are encouraged to transition to the DV2Plus™ to take advantage of its enhanced capabilities and long-term support.

For more information about DV360, please visit [www.brookfieldengineering.com](http://www.brookfieldengineering.com) or call 508-946-6200.

### **About AMETEK Brookfield**

With a legacy dating back to 1934, AMETEK Brookfield is synonymous with viscosity as the pioneer of the viscosity measurement instrument that set the global standard still recognized today. Since then, we have been at the forefront of innovative solutions to offer an extensive range of scientific lab instrumentation, including viscometers, rheometers, powder flow testers, texture analyzers, Computrac® moisture analysis instruments, and Jerome® toxic gas analyzers that consistently meet regulatory regulations and customer application needs. Our commitment to quality, accuracy, and customer support has made us a recognized global leader. When you choose AMETEK Brookfield, you can be confident in our instrument's repeatability, reliability, and accuracy, empowering you to make informed decisions and achieve optimal results.
